Subject: **Notification of the Bureau of Utilities During 2<sup>nd</sup> Alarm Fires**

---

1. At the request of the Bureau of Utilities, Communications personnel should contact the Bureau of Utilities On-Call Representative (typically Utilities 411) on any 2<sup>nd</sup> alarm fire.
2. This is to prepare them for potential water supply problems which may result from the incident.
3. The Bureau of Utilities does not have to be notified when the incident is in a non-hydrant area of the county.
